4.3 Health Examination

4.4 Health Insurance

4.3 Health Examination

All new students are asked to do a simple health check on campus, even if you have already done the Health Check that the Taipei Representative Office has required.

Notes:

If you wear glasses or contact lenses, please bring the glasses on the day of health check so that your post-treatment eyesight can be tested.

4.4 Health Insurance

During your stay in Taiwan, you have to apply for health insurance for your own health and well-being. There are two kinds of insurances available for international students.

The National Health Insurance is for the international students who have an ARC for more than 6 months.

The Medical Insurance is for the international students who don't have an ARC or staying less than 6 months.

You only need to apply for either one of them. Please refer to the following website for details: <https://www.nhi.gov.tw/en/mp-2.html>

I. Short-term Medical and Injury Insurance

According to Article 21 of the MOE Regulations Regarding International Students Undertaking Studies in Taiwan, "At the time of registration a new international student shall present proof of a medical and injury insurance policy which is valid for at least 6 months from the date the student enters Taiwan. Current student shall present written proof that they have joined Taiwan's the National Health Insurance Plan. The above-mentioned written proof of insurance issued in foreign country shall be verified by the 'Overseas Agencies'."

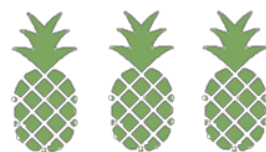

Since you can only get NHI after 6 months of your arrival, in order to safeguard your right to health care during the first 6 months, we help you get medical insurance at first that can cover your medical procedures in Taiwan.

II. National Health Insurance (NHI)

It is necessary to apply National Health Insurance for staying in Taiwan. According to Taiwan National Health Insurance Act, only students who have stayed for more than 6 months are qualified for NHI. For example, if the date of issue on your ARC is on March 10th, the nearest date you can apply is Sep. 10th.

Registration

4.5 Applying for Resident Visa and Alien Resident Certificate (ARC)

You are required to possess a Resident VISA and an ARC in order to stay in Taiwan for studying. If you have obtained a Resident VISA before coming to Taiwan, you only need to apply for an ARC when you arrive at CCU. This will make things easier. If you did not apply for a Resident VISA before coming to Taiwan, it is necessary that you apply for a Resident VISA on your own and then the ARC.

For international students, the Alien Resident Certificate (ARC) serves as their temporary ID card which can prove their resident status in Taiwan. Please remember to apply for the Alien Resident Certificate at the local office of Ministry of Interior National Immigration Agency on the next day upon arrival or within 30 days of the issue of your resident visa.

International students must apply for ARC extension within three months before the expiration date. If the ARC expires during the summer vacation (from July to September), students are allowed to apply for extension from the 1st of April. For over-staying foreigners who did not apply for ARC extension, their residence will be ceased by the authorized agency, and they may be expelled from Taiwan.
